- 24** Setup wizard is complete.

25

On your phone, press Grant to complete connection to PC.

26

When finished, the Motorola PhoneTools window displays.

***You are finished!***

## TROUBLESHOOTING TIPS

### INSTALLING SOFTWARE

If encountering problems installing your Motorola Phone Tools software, try the following:

- Uninstall any previous version of Motorola Phone Tools from PC.
- Verify you have administrator rights on your PC.
- Verify only one install program (setup.exe) is running.
- Do not connect the phone and cable to the USB port until instructed (step 15).

### CONNECTING TO PHONE

If encountering problems connecting to your phone via Bluetooth, try the following:

- Make sure that any devices previously paired with the phone or PC are turned off.
- If the PC cannot find your phone (in step 20), make sure your phone is in discovery/pairing mode.
- If your phone connected before but not now, make sure your phone is on and the Bluetooth feature is on in your phone.
